

The Innovation Relay Centre Network

The IRC network was established in 1995 by the European Commission. It supports innovation and transnational technology transfer in Europe with a wide range of specialised services. The network involves more than 1,000 people located in 250 offices in 33 countries – the 25 EU member states as well as Bulgaria, Romania, Iceland, Norway, Switzerland, Israel, Turkey and Chile.

IRC services are targeted at technology-oriented small and medium sized enterprises (SMEs) as well as universities and research institutes.

To find out more about the IRC network please visit www.innovationrelay.net

Connecting Technology Partnerships for Business

at

6 September 2006

Göteborg, Sweden

For further information, please contact

About the Event

Electronix Scandinavia will be the tenth Scandinavian electronics exhibition. The event is a powerful, business-generating venue for the whole electronics industry.

Many of the exhibiting companies have long experience of production, as well as leading edge expertise in vital areas. Many international companies have their research facilities based in Sweden due to the prevalence of lean organisations and the development of production equipment for companies that want to stay in the running

Electronix Scandinavia 2006 exhibition focus on four business areas:

- Electronic components
- Electronics production
- Testing & measuring
- Embedded technology

The brokerage event **Electronix Matchmaking** enables exhibitors and visitors at Electronix Scandinavia to find partners in Europe for technology partnerships for sustainable business.

Companies and research organisations from all over Europe are invited to use this unique opportunity to establish new cross-border contacts for future collaboration. **Electronix Matchmaking** is the ideal environment for:

- Small and medium-sized enterprises (SMEs), offering and / or looking for new technologies
- Scientists / research institutes offering innovative RTD results
- Start-up companies and entrepreneurs

How to participate

- Register and submit a technology profile online
- Profiles are published in an online catalogue, continuously updated
- Participants select interesting profiles from the catalogue and request meetings
- If confirmed, a 30 minute meeting is scheduled by the organisers

Individual schedules will be sent out to the participants before the event starts.

Please note:

To make each meeting a success, meeting requests will only be scheduled after confirmation from both sides. If requested, preliminary information can be exchanged between meeting partners before the event.

Register online
